

Dr. Powers -

I am so grateful that our paths crossed in this life and you were the one to help create a better me. When I left your office after our consultation, it was the first time in all the years of my research that I was more excited than scared. With your time, patience, and expertise, you quietly instilled courage and confidence in me. I am blessed to have been the receiver of the gift of you.

May you always
have the courage
to follow the advice of your soul.

With sincere gratitude -

Sonia
